Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. The indicated allowability of claim 28 is withdrawn in view of the newly discovered reference(s) to Tsuda et al. (United States Patent Application Publication No. US 2002/0053665 A1). Rejections based on the newly cited reference(s) follow.
2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 28 is rejected under 35 U.S.C. 102(b) as being anticipated by Tsuda et al. (United States Patent Application Publication No. US 2002/0053665 A1).
5. In reference to claim 28, Tsuda et al. (United States Patent Application Publication No. US 2002/0053665 A1, hereinafter referred to as the "Tsuda" reference) discloses a structure which meets the claim. Tsuda discloses a p-type nitride semiconductor which has at least one Group III element including aluminum and at least one Group V element including nitrogen (p. 6-9, paragraphs 76-95). The p-type semiconductor comprises a plurality of elements with one of the elements being a localized band formation element (phosphorus, arsenic, antimony) which is isovalent

with at least one of the other elements of the p-type semiconductor and has a smaller electronegativity than an electronegativity of the at least one element.

Allowable Subject Matter

6. Claims 9-17, 22, and 36 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter: the reasons for the allowance of claims 9-17, 22, and 36 were cited in a previous Office action.
